Equally compelling is a behind-the-scenes look into the investigation that revealed Barroso's habitual need to vent her anger on a defenseless child. The sensational courtroom drama is undeniably graphic, an absolute page-turner, resulting in a verdict that will shock even the most ardent readers of chilling true-crime. Includes thirteen pages of evidentiary documents and crime scene photos.

In 1984, the infant son of Kenneth and Teresa Taylor was left orphaned after Kenneth brutally murdered Teresa using a dumbbell to crack her skull. In the months that followed, an intoxicatingly traumatic battle for the infant's custody between Kenneth's parents and Teresa's

sister would destroy more lives than necessary. Shedding light on the motivations of a sociopathic killer, Peter Maas shares the gripping story of the Taylor family beginning with the murder of Teresa and progressing through the abduction of their child when the custody case went against the desires of Kenneth, leading to further incriminating actions, even as he was in jail after being convicted of murder. dr phil munchausen mom tina update: *The Sociopath Next Door* Martha Stout, Ph.D., 2005-02-08 Who is the devil you know? Is it your lying, cheating ex-husband? Your sadistic high

school gym teacher? Your boss who loves to humiliate people in meetings? The colleague who stole your idea and passed it off as her own? In the pages of *The Sociopath Next Door*, you will realize that your ex was not just misunderstood. He's a sociopath. And your boss, teacher, and colleague? They may be sociopaths too. We are accustomed to think of sociopaths as violent criminals, but in *The Sociopath Next Door*, Harvard psychologist Martha Stout reveals that a shocking 4 percent of ordinary people—one in twenty-five—has an often undetected mental disorder, the chief symptom of which is that that person possesses no conscience. He or she has no ability whatsoever to feel shame, guilt, or remorse. One in twenty-five everyday Americans, therefore, is secretly a sociopath. They could be your colleague, your neighbor, even family. And they can do literally anything at all and feel absolutely no guilt. How do we recognize the remorseless? One of their chief characteristics is a kind of glow or charisma that makes sociopaths more charming or interesting than the other people around them. They're more spontaneous, more intense, more complex, or even sexier than everyone else, making them tricky to identify and leaving us easily seduced. Fundamentally, sociopaths are different because they cannot love. Sociopaths learn early on to show sham emotion, but underneath they are indifferent to others' suffering. They live to dominate and thrill to win. The fact is, we all almost certainly know at least one or more sociopaths already. Part of the urgency in reading *The Sociopath Next Door* is the moment when we suddenly recognize that someone we know—someone we worked for, or were involved with, or voted for—is a sociopath. But what do we do with that knowledge? To arm us against the sociopath, Dr. Stout teaches us to question authority, suspect flattery, and beware the pity play. Above all, she writes, when a sociopath is beckoning, do not join the game. It is the ruthless versus the rest of us, and *The Sociopath Next Door* will show you how to recognize and defeat the devil you know.

dr phil munchausen mom tina update: *Government Brahmana* Aravinda Mālagatti, 2007 Government Brahmana is the English translation of the Kannada autobiography of Aravind Malagatti. The autobiographical narrative is in the form of a series of episodes from the author's childhood and youth. These episodes function as what G.N. Devy calls epiphanic moments in a caste society. The author reflects on specific instances from his childhood and student days that illustrate the normative cruelty practiced by caste Hindu society on dalits. We encounter all the tropes of (male) dalit life: is isolation in school where even drinking water is an ordeal; life in the village where dalits perform the filthiest tasks but are denied access to common wells, lakes, where they cannot step into shops and therefore have their purchases thrown at them, where they have to cut their own hair because no barber would touch it; consuming dead-animal meat and innards; doomed love affairs with `upper caste women. A painful, disturbing, thought-provoking memoir, this text is conversely full of vitality, even tenderness. In its structure and purpose as a series of notes towards a dalit autobiography Government Brahmana appears to be anticipated by Ambedkar's own autobiographical sketches.
