**saint vincent de paul thrift store los angeles: Salaula** Karen Tranberg Hansen, 2000-08 When we donate our unwanted clothes to charity, we rarely think about what will happen to them: who will sort and sell them, and finally, who will revive and wear them. In this fascinating look at the multibillion dollar secondhand clothing business, Karen Tranberg Hansen takes us around the world from the West, where clothing is donated, through the salvage houses in North America and Europe, where it is sorted and compressed, to Africa, in this case, Zambia. There it enters the dynamic world of Salaula, a Bemba term that means to rummage through a pile. Essential for the African economy, the secondhand clothing business is wildly popular, to the point of threatening the indigenous textile industry. But, Hansen shows, wearing secondhand clothes is about much more than imitating Western styles. It is about taking a garment and altering it to something entirely local, something that adheres to current cultural norms of etiquette. By unraveling how these garments become entangled in the economic, political, and cultural processes of contemporary Zambia, Hansen also raises provocative questions about environmentalism, charity, recycling, and thrift.

Undoing Whiteness in the Classroom is a comprehensive effort to bring together, in one volume, educultural practices and teaching strategies that deconstruct whiteness hegemony, empower individuals to develop critical consciousness, and inspire them to engage in social justice activism. Through music, the visual and performing arts, narrative, and dialogue, educulturalism opens us up to becoming more aware of the oppressive cultural and institutional forces that make up whiteness hegemony. Educulturalism allows us to identify how whiteness hegemony functions to obscure the power, privilege, and practices of the dominant social elite, and reproduce inequities and inequalities within education and wider society.

**saint vincent de paul thrift store los angeles: Compassion, Michigan** Raymond Luczak, 2021 Encompassing some 130 years in Ironwood's history, Compassion, Michigan illuminates characters struggling to adapt to their circumstances starting in the present day, with its subsequent stories rolling back in time to when Ironwood was first founded. What does it mean to live in a small town--so laden with its glory day reminiscences--against the stark economic realities of today? Doesn't history matter anymore? Could we still have compassion for others who don't share our views? A Deaf woman, born into a large, hearing family, looks back on her turbulent relationship with her younger, hearing sister. A gas station clerk reflects on Stella Draper, the woman who ran an ice cream parlor only to kill herself on her 33rd birthday. A devout mother has a crisis of faith when her son admits that their priest molested him. A bank teller, married to a soldier convicted of treason during the Korean War, gradually falls for a cafeteria worker. A young transgender man, with a knack for tailoring menswear, escapes his wealthy Detroit background for a chance to live truly as himself in Ironwood. When a handsome single man is attracted to her, a popular schoolteacher enters into a marriage of convenience only to wonder if she's made the right decision. RAYMOND LUCZAK, a Yooper native, is the author and editor of 24 books, including

Flannelwood. He lives in Minneapolis, Minnesota. These are stories of extremely real women, mostly disappointed by life, living meagerly in a depleted town in the Upper Peninsula of Michigan. Sound depressing? Not at all. Luczak has tracked their hopes, their repressed desires, and their ambitions with the elegance and precision of one of those silhouette artists who used to snip out perfect likenesses in black paper; people 'comforted by the familiarity of loneliness,' as he writes.

--EDMUND WHITE, author of *A Saint in Texas* "Filled with grief and hope, bitterness and tenderness, Raymond's collection of short stories exudes compassion for its characters and their environs. With a confident eye to detail, and knowledge of the pulse of the place, he brings the reader into the quiet lives the people in the stories appear to be living only to reveal internal tensions around sexuality, belonging, and family. A pleasurable, nuanced portrayal of life in a small town by a talented writer with an understanding of the humanity we all share." -- CHRIS STARK, author of *Nickels: A Tale of Dissociation* "Raymond Luczak's Compassion, Michigan is a modern-day version of Winesburg, Ohio that proves William Faulkner's statement that 'The past is never dead. It is not even over.' These stories describe a small town over the course of the twentieth century, experiencing change, being haunted by its past. Its residents live their lives of quiet desperation as queer, confused, disempowered or outcast members of their community. They seek love, sex, purpose, and the freedom to be themselves. In short, they are human, and they have much to teach us." --TYLER R. Each walk is rated for duration, distance, and difficulty, and is accompanied by a map. The walks, like those in *Secret Stairs*, are filled with fascinating factoids about historical landmarks—the original Bat Cave from Batman, the lake where Opie learned to fish on *The Andy Griffith Show*, or the storage barn for one of L.A.'s oldest wineries. The book also highlights the people who made the landmarks famous: the infamous water engineer William Mulholland; the convicted murderer and philanthropist Colonel Griffith J. Griffith; Charles Lummis, who walked from Cincinnati to Los Angeles to take a job on the L.A. Times; and tobacco millionaire Abbot Kinney, who dug canals to drain the marshes south of Santa Monica and create his American "Venice." Written in the entertainingly informed style that has made *Secret Stairs* a Los Angeles Times best-seller, *Secret Walks* is the perfect book for the walker eager to explore but tired of the crowds at Runyon Canyon or Temescal Park.

**saint vincent de paul thrift store los angeles: Shepherds in the Image of Christ** Mary Diane Langford CDP, 2014-05-15 Bishop John Shaw was importing priests from Europe when he discerned the need for a seminary for the Diocese of San Antonio, TX. A locally-formed clergy was key to the support of the Catholic faith in the young diocese. Relying on five diocesan priests as faculty, Shaw

dedicated St. Johns Seminary in 1915. A frontier, make-do attitude energized the first faculty as they taught and guided the seminary's first class who lived and studied in what had been the bishops' residence. In its first century, St. Johns Assumption Seminary has trained nearly 800 priests for service in arch/dioceses across the US and foreign lands. With the guidance of arch/diocesan priests in the first 25 years, the Congregation of the Missions (Vincentians) in the second 25 years, and again directed by archdiocesan priests and a diverse faculty in the last 50 years, St. Johns Assumption has both struggled and thrived. Collaborating with Oblate School of Theology, St. Johns Assumption nationally-known for its pioneering bilingual-bicultural programs, stands on solid ground as it begins its second century. *Shepherds in the Image of Christ* chronicles 100 years of molding men and boys into priests for the Roman Catholic Church of Texas and beyond.

Abbie Hoffman, 2021-09-14 Still Notorious, Radical, and Revolutionary 50 Years Later. A survival guide from one of the greatest creative organizers of the 20th century—now with a new foreword by co-conspirator, Lisa Fithian. Throughout the 1960's and 70's, Abbie Hoffman criss-crossed the country, ferreting out alternative ways of getting by in America—some illegal and all radical. Causing scandals with its advice on how to Survive!, Fight!, and Liberate! in the “prison that is Amerika,” *Steal This Book* is a revolutionary's manual to running a guerilla movement, as well as getting free food, housing, transportation, medical care, and more. This anniversary edition gives a new generation an insider's view into the movements of the sixties and seventies. While many of the holes in the system that Abbie exposed have since been plugged, the spirit of revolution, the dedication to opposing injustice, and the passion of creative activism continue to inspire today.
